Welcome to Year 4 for Term 1, 2016

My name is Ms Lisette Dale and I will be teaching this delightful group of Year 4 students. We will have many wonderful experiences and opportunities to learn and grow in the months ahead.

We already have plenty to look forward to, including, the Swimming Carnival on Friday 12th February, the Junior School Picnic on the Oval on Tuesday 16th February, the inaugural Year 3/4 camp at Lake Burrendong (22-24 Feb), running the Junior School Assembly on Friday 26th February and familiarising ourselves with our new routines and expectations.

Snapshot of Term 1:

In English, we will be immersing ourselves in the picture book, Fire by renowned Australian author Jackie French. It is inspired by the bushfires that have affected many Australians; Fire is a moving and sensitive story of a natural disaster as seen through the eyes of a cockatoo. The fire mercilessly engulfs homes and land, leaving a devastating path of destruction. It explores the concepts of community and relationships and courage and hope. We will also enjoy reading the book Bungawitta by another prominent Australian author, Emily Rodda. Bungawitta is a funny yet thought-provoking book about living in a drought-affected area of Australia.

In Science we will be studying a unit called Melting Moments (Primary Connections). The Melting moments unit is an ideal way to link science with literacy in the classroom. Every day we see or use things that have been melted or frozen, heated or cooled. All around us are items that we find both useful and attractive that have been moulded into different shapes using heating and cooling. These can range from cast iron frying pans and plastic rubbish bins to chocolate bilbies. Understanding the properties of materials and how they change state under different conditions can help materials scientists to develop even more extraordinary products to help improve our quality of life.
Our HSIE topic is Early European exploration. During the fifteenth and sixteenth centuries there was a great outbreak of exploration from Europe to unknown areas of the world. Students will research the explorer Christopher Columbus and discuss the impacts that his explorations and discoveries had on the new and old world. Then they will embark upon their own research of an explorer of their choosing.

During Creative Arts we will be exploring one of the worlds leading Impressionist artists, Claude Monet. To support and enhance our learning we will be visiting the wondrous Water Garden at Mayfield Gardens to sketch and photograph their stunning bridges and water lilies. Place this webpage in your favourites, as we will be showcasing some of the artworks produced by our budding artists.

Finally I would like to say thank you to those people who are able to help with Before School Reading. Your assistance is vital to the efficacy of the program and is greatly appreciated.

Once again I extend a very big welcome to all of our Year 4 students and their families. Here’s to a wonderful term.

Regards

Ms Lisette Dale
