Medical History and Consent Form

In compliance with the NSW Health Department Guidelines any child that is not immunised will be excluded from school if an outbreak occurs of diseases such as Chicken Pox, Whooping Cough, etc. This is why it is so important to return the Medical History and Consent Form along with your child’s Immunisation History Statement. We are still waiting on a few of these medical information forms to be returned. Please make this your priority.

It is so vital that we know your child’s medical details. Even if your child has no medical conditions, we still need the form to be returned so if an emergency does arise, we can treat your child accordingly, eg: administering Paradol, using the contact emergency details, information on last tetanus booster. Please give these forms to Rachel in Reception. If you have any concerns regarding these forms please contact Michele Fulton in the Clinic or Rachel McMahon in Reception. These forms are kept confidential.
